

German quality you can trust

## Furniture Fittings & Architectural Hardware Price List

effective February, 2022

Hettich Forum at Kirchlengern, Germany

Hettich Manufacturing Plant at Vadodara, India

Hettich Manufacturing Plant at Indore, India

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a centre of the German furniture industry. Today, Hettich, still family owned, has become an industry leader with a worldwide reputation.

We're one of the world's largest manufacturers of high-quality furniture fittings, with over 6,700 employees in more than 100 countries. The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability.

We work to inspire our customers with our ideas and our passion.

Awarded by experts. Praised by customers.

### Quality

Hettich products stand for high quality. Once assembled, our fittings function perfectly day in, day out. High quality products and processes confirm our sense of value, our self confidence and our image. The way to the quality goal for each one of us is to cultivate an intense quality awareness.

### Innovation

The right balance of continuity and innovation generates trust in the Hettich brand. We offer timely, high-value solutions for today's furniture; at the same time, we identify and shape the trends of tomorrow. We review and improve existing solutions ready for the future. Driving innovation is our capacity for looking at things from new angles.

### Closeness to customers

For us closeness to customers implies sharpened awareness, attention to detail, a grasp of complex challenges, and efficiency in production and logistics. We know our customers. We're there when our customers need us! The keynote of our partnership with our customers is direct, person-to-person communication.

### Reliability

Quality, innovation, closeness to customers – they're nothing without reliability! Reliability encompasses the durability of our products and the reliability of Hettich people – each and every one of us. The solid basis for reliability is robust and stable processes.

### Free Design Service:

Looking for Designs to liven up your Living Room, Bedroom, Bathroom & Kitchen? A dedicated team of highly qualified Interior Designers is at your service to provide customized design solution to suit every taste and budget at zero cost to you.

### Free Consultation at your Doorstep:

Looking for perfect Furniture Fittings solution? A dedicated team of highly qualified professionals is at your service to provide the perfect furniture fittings solution to suit your need and budget at zero cost to you.

### Hettich Customer Care Service:

In today's fast paced and technologically advanced era, most of the organizations succumb to the pressure of staying ahead in the competition and often, end up neglecting the most critical aspect of business i.e. customers. Hettich, being a customer centric organization, is very sensitive towards this tendency; hence, we constantly try to provide the best and quality driven products and services.

EN 5	1250	100
EN 6	1400	120
EN 7	1600	160

## 3D Adjustment Hinges Installation: Precautions

Things to be remember while Installing 3D Concealed Hinge

- Alignment of the door should be perfectly at 90 degree from floor
- The adjusted door weight to be calculated according to door weight calculation sheet.
- Door dimensions: Door Width: Max 1000 mm Door Height: Max 2400 mm Door Thickness: Max 60 mm
- 3 Nos of hinges are more than enough for doors of adjusted door weight\* up to 135 kg

Note:- No more than 3 hinges to be suggested per door \*Please calculate adjusted door weight explained on page no.138

## Weight to Width Ratio Graph

Graph shows weight to width ratio for door without door closer with max 3 Nos of hinges

Graph

## Hinge Position: Diagram

Below are two options for hinges installation:

Installation of the top & bottom hinges first followed by the third hinge according to drawing.

Note: The two hinges at the top carries the major portion of door weight while the bottom hinge completes the door axis

**Fig. 1**  
2 hinges per door

**Fig. 2**  
3 hinges per door

## Door Milling Drawings

Please make sure the door cutouts to be made are as per door milling diagrams

Note: Manual cutting may sometimes lead to misalignment and misalignments may hamper the performance of the hinge
